CUSTOM SIZE PRINT PRODUCTION GUIDE

Create the artwork artboard at the exact width and height selected in the product configurator. This guide is not a fixed-size artboard.

- 01** Use the exact ordered width and height with no crop marks or extra bleed.
- 02** Continue backgrounds to every finished edge.
- 03** For pole pockets, do not enlarge the artboard. Keep critical artwork clear of the selected pocket seam.
- 04** Use separate front and back files for different two-sided artwork.

FINAL CHECK

Exact ordered dimensions - CMYK - 150 dpi - fonts outlined

No crop marks or extra bleed unless the product instructions require it

Remove all guide artwork before exporting the production file
